PROFILE

Detail-oriented and motivated Junior Web Developer with a Bachelor's degree in Computer Science from Arsi University. Proficient in JavaScript, MySQL, React, and Next.js, with hands-on experience in developing dynamic web applications. Passionate about leveraging technology to create user-friendly and efficient web solutions. Eager to contribute to a collaborative team environment and further enhance technical skills.

WORK EXPERIENCE

Madda walabu university

2025-PRESENT

Junior Web Developer (Intern)

- Collaborated with senior developers to design and implement web applications, enhancing user experience and functionality.
- Assisted in debugging and troubleshooting issues in existing applications, improving performance and reliability.
- Participated in code reviews and contributed to team discussions, fostering a culture of continuous improvement.

PROJECTS

Netflix Clone Website

- Developed a responsive clone of the Netflix website using React and Next.js, focusing on user interface design and functionality.
- Implemented features such as user authentication, video streaming, and a dynamic content display using MySQL for data management.
- Enhanced user engagement through intuitive navigation and a visually appealing layout.

Personal Blog Website

- Created a personal blog website to showcase writing and technical projects, utilizing React for front-end development and MySQL for backend data storage.
- Integrated SEO best practices to improve visibility and user reach, resulting in a 30% increase in site traffic over three months.
